ONLINE Datacenter REVAMP

Saudi Aramco Mobil Refinery Company Ltd

About The SAMREF

SAMREF is an exemplary leading Oil refinery in the region with mission to timely supply the highest value products at a competitive cost through a competent and optimized work force, while maintaining world class safety, reliability and environmental protection across the year & 24x7.

SAMREF Datacenter REVAMP Consultancy & Improvement Project

Saudi Arabian Oil Company (Saudi Aramco) is the worlds largest oil producing and exporting company and was established by Royal Decree in 1988 to assume the responsibilities of its predecessor, Aramco that has a history dating back more than 70 years.

Exxon Mobil Corporation is a global energy company with a history dating back more than 132 years and which conducts business in 140 countries on every continent throughout the world.

SAMREF is a complex refinery which was formed in 1981 for the development, construction, ownership and operation of crude oil refining facilities in Yanbu, Saudi Arabia. The design capacity through a continuous improvement of its facilities reaches now to processes about 402,000 barrels per day.
